

Ermal Keqmezi

AI ENGINEER · SOFTWARE DEVELOPER

Rr. Muharrem Fejza, Prishtinë, Kosovo ekeqmezi10@gmail.com +383 43 777 063

PROFILE

Computer Science and Engineering student with hands-on experience building full-stack applications in Java, C#, and .NET MVC. Strong foundation in algorithms, data structures, and databases, currently transitioning toward AI/Machine Learning engineering. Fast learner with a track record of delivering working software independently, seeking a Junior AI Engineer role to apply solid programming fundamentals while growing into applied ML and data-driven systems.

WORK EXPERIENCE

.NET MVC Internship 01/2025 – 06/2025 — Tectigon Academy

- Designed and developed a full restaurant management application handling order flow and kitchen operations between waitstaff and kitchen staff.
- Built the data layer and business logic in C# / .NET MVC, working with a relational database to manage orders, menu items, and staff roles in real time.
- Practiced core software engineering skills — structured problem decomposition, debugging, and iterative development — that directly transfer to building and maintaining ML pipelines and AI-powered applications.

SELECTED PROJECTS

BlueTech ASP.NET Core 7 · React/TS · PostgreSQL
Full-stack e-commerce app (ASP.NET Core 7, React/TypeScript, PostgreSQL) with Stripe payments, Cloudinary image uploads, JWT auth, and an admin panel for product management.

AI Assistant Python · ChromaDB · Claude API
RAG-based AI assistant (Python, ChromaDB, Claude API) that answers questions from ingested documents, with both a CLI and Streamlit UI.

RestaurantAppProject .NET 8 · EF Core · SQLite
ASP.NET Core MVC restaurant ordering system (.NET 8, EF Core, SQLite) with role-based access (Admin/Manager/Waiter/Bartender) and a session-based cart and checkout flow.

TECHNICAL SKILLS

PROGRAMMING

Java C# JavaScript

PHP

FRAMEWORKS & TOOLS

.NET MVC Relational Databases

EDUCATION

BSc Computer Science and Engineering

10/2021 – Present

University of Business and Technology (UBT)

Coursework: Java, PHP, Databases, .NET MVC, JavaScript

High School Certificate

07/2018 – 06/2021

Don Bosko

LANGUAGES

Albanian Native
English C1
