## PROFILE

Computer Science and Engineering student with hands-on experience building full-stack applications in Java, C#, and .NET MVC. Strong foundation in algorithms, data structures, and databases, currently transitioning toward AI/Machine Learning engineering. Fast learner with a track record of delivering working software independently, seeking a Junior AI Engineer role to apply solid programming fundamentals while growing into applied ML and data-driven systems.

## WORK EXPERIENCE

### .NET MVC Internship — Tectigon Academy

01/2025 – 06/2025

- Designed and developed a full restaurant management application handling order flow and kitchen operations between waitstaff and kitchen staff.
- Built the data layer and business logic in C# / .NET MVC, working with a relational database to manage orders, menu items, and staff roles in real time.

## SELECTED PROJECTS

### AI Tool-Calling Agent

Python · Claude API · FastAPI · Streamlit

AI agent on the Anthropic Messages API with a hand-written tool-calling loop (no agent frameworks): a tool registry for calculator, time, weather, web search and file tools, user approval before write actions, conversation memory, a Streamlit chat UI and FastAPI endpoint, tested with pytest.

### AI Assistant

Python · ChromaDB · Claude API

RAG-based AI assistant (Python, ChromaDB, Claude API) that answers questions from ingested documents, with both a CLI and Streamlit UI.

### FitTrack

Next.js · TypeScript · Supabase

Installable PWA gym journal (Next.js, TypeScript, Tailwind, Supabase) for planning workouts, logging sets and tracking progress and personal records with charts; row-level security on every table, offline autosave, and Vitest and Playwright tests.

## EDUCATION

### BSc Computer Science and Engineering — University of Business and Technology (UBT)

10/2021 – Present

Coursework: Java, PHP, Databases, .NET MVC, JavaScript

## TECHNICAL SKILLS

| | |
|---|---|
| *Programming* | Java, C#, JavaScript, Python |
| *Frameworks & Tools* | .NET MVC, Relational Databases |
| *Currently building* | Python and Machine Learning fundamentals, to complement existing software engineering skill set |

## LANGUAGES

Albanian — Native • English — C1
